

BENEFITS

Delicately delivers intradermal treatments to improve the appearance of fine lines and increase skin moisture

- Easy, quick and simple procedure stimulates collagen for an enhanced cosmetic effect
- Pain-free delivery

Fine treatment of sensitive areas:

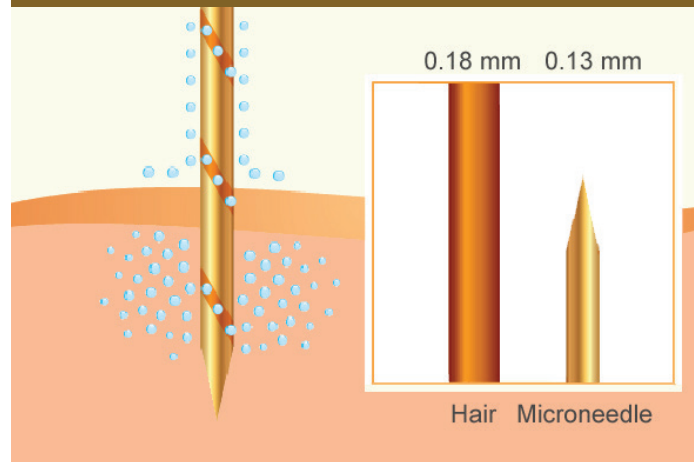

- Perioral (around the mouth)
- Periocular (around the eye)
- Forehead
- Neck
- Back of hands

TECHNOLOGY

AQUAGOLD® fine touch™

Delivers treatments efficiently through patented screw-like design

needle length: 600 micrometers

FEATURES:

24-Carat gold-plated, surgical grade microneedles

- Diameter (0.13mm) is thinner than a human hair
- 20 microneedles increase treatment efficiency
- Direct delivery to the skin dermis

AQUAGOLD® fine touch™

Exclusively available in your physician's office for provider-guided treatments

The perfect finishing touch following intradermal treatments, including:

- Hyaluronic acid fillers, such as Juvederm®
- Neuromodulators, such as Botox Cosmetic®
- Vitamin complex and mesotherapy
- Growth factors and PRP
- Hyperhidrosis

AQUAGOLD® fine touch™

The patented microneedle technology improves treatment efficiency by promoting greater therapeutic absorption

- Facilitates active ingredient transfer via minute pores
- Delivers small amounts of therapeutics directly into the skin
